

# Educational Visits & Outdoor Learning

## July 2016

### Year 2 Trip to the bowling alley

Mrs Debus' class won the attendance award and decided to spend their £50 prize going bowling. They wanted all the children in Year 2 to go, so they invited Miss Fuell's class to join them.

Zara won the whole competition with 119 points. Alma scored 104 points and explained that they had played it the adult way, without the children's guider. Shikana, who scored 81 points thought it was great fun. Owen, who scored 102 points, explained that they had planned to have a picnic in the park, but due to the rain had it in the bowling alley instead.

### Year 5 Trip to Steamer Point

Year 5 visited Steamer Point as an end of term trip. They were able to play on the beach, paddle in the sea, build sandcastles and even eat ice-cream! Mrs Hobbs and Mrs Nottingham even challenged the children to see whose sandcastle stayed up the longest.

Alisha liked paddling in the sea, even though it was very cold! Braiden enjoyed building sandcastles, as he really needed to think about what he needed.

### Reception Trip to Thomley Hall

Both Reception classes and some children from Frank Wise School visited Thomley Hall. Thomley Hall is a place for abilities and disabilities. They had the opportunity to: play a range of instruments in the music room, including the drums!; Play in a soft play area; Create some artwork in the art room; experience a sensory room and play on a range of equipment in their playground.

The children enjoyed the experience. Gracie F, Tabarik, Frabcisc and Ben enjoyed playing in the ball pool and Gracie S loved playing in the whole of the soft play area.
