

This year, we will be holding our Science Week from Monday 24th February 2020.

I am setting a science challenge to everyone in KS2, where children (and their parents) can work towards a national award, run by Crest, in partnership with the British Science Association. If you would like to complete this challenge as part of your home learning, you need to look online for the challenge booklet.

This is the website:

<https://primarylibrary.crestawards.org/all-superstar-challenges/61747644>

The information is also on the school website: <https://st-leonards.oxon.sch.uk/classes/year-4/>

We are looking at the Superstar Challenges for 7-11 year olds. You can download the booklet and complete any of the challenges that you want.

Eight challenges need to be completed at home and the 'passport' filled in and signed by your parent. It needs to be returned to me by **24th February**, so that the awards can be ordered.

Please come and see me, if you have any questions.
